

Course Title:

- Fire Warden Training (½ Day)

Course Objective:

- This course is designed for employees nominated as fire marshals or fire wardens in their workplace. The course design covers both emergency and non-emergency issues of this vital role and equips attendees with an appropriate level of understanding to perform their role safely within their workplace

Course Outcomes: Including the following topics:

- Identify individual classes of fire and select an appropriate extinguisher to tackle it; though only if safe to do so
- Recognise potential fire hazards and the appropriate actions to eliminate them
- Understand the dangers of fire and smoke & the importance of regular fire drills

Target Audience:

- This course is aimed at nominated competent persons who have a responsibility for implementing the company's fire evacuation procedure. It is also suitable for employees who have a direct responsibility for developing or improving their existing evacuation procedures to maintain effectiveness in an ever changing work environment

Pre-requisites:

- None

Course Accreditation:

- Fire Warden Certificate, which First Rate Training currently validates for 3 years

Course Summary:

- The Fire Warden Training course is suitable for all employees and will give them a far greater appreciation of fire prevention in the workplace. All employees will receive expert tuition on how to reduce fires in the workplace and what their actions would be if a fire were to occur
